

2013 SMCOP

'Roles of the participants and instruction about the process'

■ Roles of each participants

- Bureau Members: 4 people under the 4 different Subsidiary bodies (16 middle & high school students, 16 university students, total 32 people) will make the conference progress by playing a role as a chairperson, vice- chairperson and rapporteur. They are to lead the conference towards the conclusion.

- Delegates : will be participating in a conference by discussing and presenting ideas about the climate change as a representative of each country (143 middle & high school students, 134 university students, total 268 people)

- ✘ The countries of delegates will be granted with a country at random by the Secretary (40 countries at the max for each subsidiary body)

- Observers : watch and learn the progress by just observing the conference with no right to voice (150 middle & high school students, 150 university students, total 300)

■ Prior education

- Education through online (official web-site)

- Prior assembly education (2~3 times) for chairpersons (Delegates have chance to attend prior education for those who want)
- Prior workshop for all participants will be held one day before the event (the date will be notified later on)
- Each participant are encouraged to do preliminary research on the assigned country and study about the climate changes
